We were informed that the following changes of the Underlying Funds have come into effect as of April 7, 2017.

In addition to the existing option of investing in certain permissible Chinese A-shares via Shanghai-Hong Kong Stock Connect, the Underlying Funds have been entitled to invest in certain permissible Chinese A-shares via Shenzhen-Hong Kong Stock Connect and had direct access to them. The objective of the proposed change is to increase the Underlying Funds' capacity via additional direct access to Shenzhen Stock Exchange-listed Chinese A-shares. The aggregate exposure (whether direct or indirect) to China A-Share and China B-Share markets for the Underlying Funds will be maintained at 10% or below of its total net asset value.

In line with the information outlined above, the investment policies of the Underlying Funds shall be amended to the effect that the Underlying Funds' investment exposure may also include Chinese A shares traded via Shenzhen-Hong Kong Stock Connect. Further, the existing risk information in relation to Shanghai-Hong Kong Stock Connect will be adjusted by adding the respective details in relation to Shenzhen-Hong Kong Stock Connect.

The above changes will be incorporated into the offering documents of the Underlying Funds. Please refer to the latest offering documents of the Underlying Funds for further information relating to the above changes.
