

# “Fund price” Website – 4 Frequently Used Functions User Guide (Mobile version)

The new ‘Fund Price’ interface is now available on the Manulife Hong Kong website for comparison and analysis of funds/investment choices.

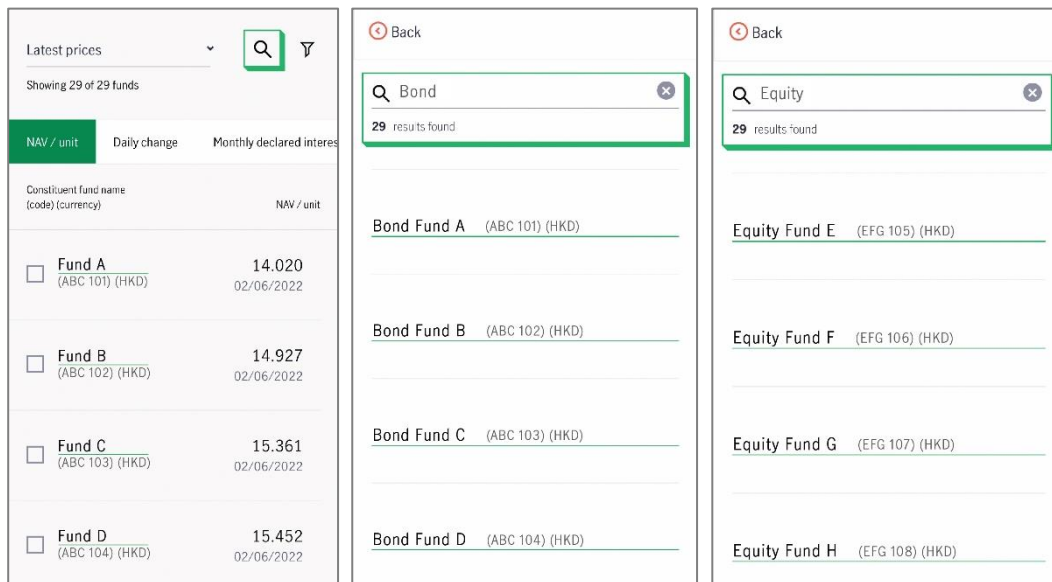

Equipped with the 4 new and enhanced functions so you can find the information you need, faster than ever.

[Tip: You can click on the button on top right corner to visit the guide of that function.]

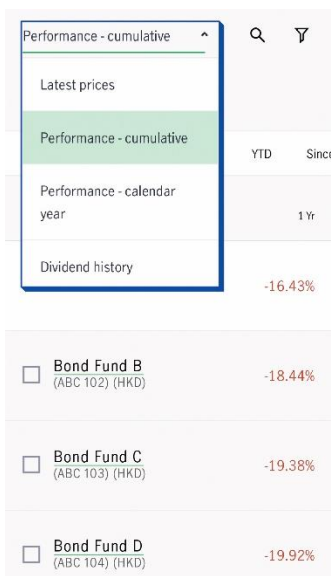

Note: The visuals and information below are for illustrative purpose only. Some information may not be applicable to Investment-Linked Assurance Schemes. Information shown in website might differ depending on chosen product.

## 1. Search function – Look for the funds/investment choices you need

In the search bar (green box), enter keywords or codes related to the fund/investment choice to reveal search results at once.

Click on other tabs (blue box) such as ‘Performance-cumulative’ or ‘Performance-calendar year’ for further information directly on your search results.

## 2. Filter function – Shorten search time and promptly shortlist the funds/investment choices according to filter criteria

By clicking on the tabs (blue box) and the ‘Filter’ icon (green box), select a sorting method (purple box) to sort information in ascending or descending order for a clear glance.

#### Smart Tip 1: ‘Filter’, then ‘Sort’

By combining the ‘filter’ and ‘sort’ functions, sort funds/investment choices of the same category according to their performance or other attributes during a chosen period more effectively.

For example, to view the better performing funds/investment choices under same ‘Asset class’ in 2021, such as ‘Equity’ or ‘Bond’.

1. In the ‘Filter’ settings, choose the ‘Asset Class’, such as ‘Equity’ or ‘Bond’
2. Under the ‘Performance- calendar year’ tab, sort column ‘2021’ in descending order to view.

#### Smart Tip 2: ‘Search’, then ‘Sort’

Use the ‘Search’ and ‘Sort’ functions together to easily sort chosen funds/investment choices according to performance or other attributes within a certain period.

For example, to view the better performing equity funds or bond funds since launch.

1. Enter keyword ‘equity fund’ or “bond fund” in the search bar
2. Under the ‘Performance- cumulative’ tab, sort the ‘Since launch/ launch date’ column in descending order to view.

## 4. Fund/Investment Choice Comparison Function

Chosen funds/investment choices are also listed by ‘Cumulative’ or ‘Calendar year’ performance (green box), so you can view past performances at one glance.

### Smart Tip 3: Lock, then Compare

After using the ‘Search’, ‘Filter’ or ‘Sort’ functions to lock and choose the funds/investment choices you would like to compare, utilise the ‘Performance-cumulative’ and “Performance-calendar year” tabs to analyse information details side by side.

The above example is solely for your reference only. If you use the information above for comparison purposes, please note that only the “like-with-like” comparison is deemed relevant and the risk/return level of respective investment choices should be taken into consideration.

For example, to compare fund/investment choice performances side by side.

1. Using the ‘Search’, ‘Filter’, or ‘Sort’ functions, tick the better performing funds/investment choices in the past ‘5 years’.
2. Compare them to view their details and performance.

**Investment involves risk. Investment choice prices may go down as well as up. Past performance figures shown are not indicative of future performance. You should not make investment decision solely based on the information in this user guide.**
