

HSBC Global Investment Funds

HONG KONG EQUITY

Monthly report 31 October 2022 | Share class PD

Fund center

Risk Disclosure

- The Fund invests mainly in Hong Kong equities.
- The Fund is subject to the geographic concentration risks of investing in a single market.
- The Fund may invest in financial derivative instruments for investment purpose which may lead to higher volatility to its net asset value.
- The Fund's investments may involve currency, volatility, liquidity, equity market risks, risk associated with small/mid-capitalisation companies, tax and political risks. Investors may suffer substantial loss of their investments in the Fund.
- Investors should not invest solely based on factsheet and should read the offering documents for details.

Investment objective

The Fund aims to provide long term capital growth by investing in a portfolio of Hong Kong SAR shares, while promoting environmental, social and governance (ESG) characteristics. The Fund qualifies under Article 8 of SFDR.

Investment strategy

The Fund is actively managed. In normal market conditions, the Fund will invest at least 90% of its assets in shares (or securities similar to shares) of companies of any size that are based in or carry out the larger part of their business activities in, Hong Kong SAR. The Fund includes the identification and analysis of a company's ESG Credentials as an integral part of the investment decision making process to reduce risk and enhance returns. The Fund will not invest in companies with involvement in specific excluded activities, such as: companies involved in the production of controversial weapons and tobacco; companies with more than 10% revenue generated from thermal coal extraction; and companies with more than 10% revenue generated from coal-fired power generation. The Fund can invest up to 20% in China A and China B-shares, up to 10% in other funds and up to 10% Real Estate Investment Trusts. See the Prospectus for a full description of the investment objectives and derivative usage.

Monthly performance commentary

Stock selection was negative for the month. Positive performance came from Real Estate and Energy, though this was offset by negative stock selection in Financials and Consumer Staples.

Energy security, CNOOC with total effect 0.31% is the top contributor. Additionally, Industrials security, MTR was the second largest contributor with total effect 0.27%. Telecommunications security, China Mobile also contributed with total effect 0.25%.

On the other side, detractors include Financials security HSBC with total effect -0.46%, Consumer Staples holding Tsingtao Brewery with total effect -0.27%, and Financials holding Bank of China with total effect -0.19%.

No positions were opened during the period.

Sector and country allocation effects are residual to stock selection. At the country level, effects were positive, given an underweight exposure to Mainland China. At the sector level, effects were positive, given an overweight exposure to Telecommunications.

Benchmark disclosure

The Investment Advisor will use its discretion to invest in securities not included in the reference benchmark based on active investment management strategies and specific investment opportunities. It is foreseen that a significant percentage of the Fund's investments will be components of the reference benchmark. However, their weightings may deviate materially from those of the reference benchmark. Any deviations with respect to the benchmark are monitored within a comprehensive risk framework, which includes monitoring at security and sector level. The deviation of the Fund's performance relative to the benchmark is monitored, but not constrained, to a defined range. The reference benchmark has a high level of concentration. This means that a small number of securities make up a significant proportion of the benchmark.

Supplemental information sheet

Share class	Share Class Base Currency	Distribution Frequency	Dividend ex-date	Dividend Amount	Annualised Yield based on ex-dividend date
AC	USD	--	--	--	--
ACHKD	HKD	--	--	--	--
AD	USD	Annually	6 July 2022	0.009080	0.01%
ADHKD	HKD	Annually	6 July 2022	0.000819	0.01%
PD	USD	Annually	6 July 2022	0.733346	0.61%

The above table cites the last dividend paid within the last 12 months only.

Dividend is not guaranteed and may be paid out of capital, which will result in capital erosion and reduction in net asset value. A positive distribution yield does not imply a positive return. Past distribution yields and payments do not represent future distribution yields and payments. Historical payments may be comprised of both distributed income and capital.

The calculation method of annualised yield from August 2019 is the compound yield calculation: $((1 + (\text{dividend amount} / \text{ex-dividend NAV}))^n) - 1$, n depends on the distributing frequency. Annually distribution is 1; semi-annually distribution is 2; quarterly distribution is 4; monthly distribution is 12.

The annualised dividend yield is calculated based on the dividend distribution on the relevant date with dividend reinvested, and may be higher or lower than the actual annual dividend yield.
