- From January 01, 2018, the Insurance Authority of Hong Kong has started to collect a levy on premiums of Hong Kong insurance policies.
- Premium and levy amount will be debited from your bank account through autopay. We will start to collect premium and levy through autopay through the above designated bank account from the said effective date. It normally takes **8 weeks** for autopay to set up. You are required to settle any premium and levy due before the autopay effective date by other means or if you have current autopay arrangement, the due amount will be debited from the said account until the new set up is effective.
- Premium amount to be debited will be net of any eligible bonus and discounts.

- The autopay debit will be processed at midnight (00:00 a.m.) on the payment date indicated or if such date falls on a non-banking day, the following banking day.
- Upon successful completion of this autopay setup request, payment method will be changed to autopay and any existing autopay arrangement will be superseded accordingly from the effective date of the new arrangement.
- Any overdue premium and levy (excluding loan repayment and top up premium) will be re-debited automatically on next month's debit date. It is applicable to payment mode of monthly, quarterly, semi-annually and annually. For example, if the original autopay debit date for the policy premium is 3rd June but it's not settled due to insufficient fund, such unsettled premium and levy will be re-debited on the same debit date of the following month (i.e. 3rd July), regardless of which payment mode is selected. If you would like to change the auto re-debit arrangement, please contact your insurance advisor or call our Customer Service Hotline on (852) 2510 3941.
